Water meters were read on March 25<sup>th</sup> & March 26<sup>th</sup>. It has been five months since your meter was last read. Your water bill will reflect 5 months of water usage and you may or may not see an increase in your bill depending on the amount of water you used in that time period. The bill will reflect any overages that occurred in the past 5 months above the minimum use of 4,125 gallons or 550 cubic feet per month which is what you are allowed each month for the base water rate. If your bill should reflect an undetected water leak you may be able to petition the Town Council for an adjustment in the charges for the period during which the leak remained undetected.
