MARCH 2016 NEWSLETTER

WATER METER READINGS

It has been five months since we have read water meters. Weather permitting, meters will be read on March 24th & 25th and your water bill may or may not reflect water use overages. During each of those five months you were billed for the minimum use of 4,125 gallons/550 cubic ft. of water. If your household used above the minimum amount then the overage will reflect on the billing you will receive at the end of March due by April 20th. Any water customer whose monthly water charges have suddenly and unexpectedly increased as the result of a water leak may petition the Town Council for an adjustment in the charges for the period during which the leak remained undetected, provided, as a condition of any such adjustment, the Town Council must:

- *Find that the customer did not know about the water leak and could not have reasonably known about the water leak during the period for which the adjustment is sought;*
- *When the leak was finally discovered, the customer took reasonable action to promptly repair the leak;*
- *The Town Council must find that the increased water charge resulting from the leak during the period for which the adjustment is sought will impose an undue hardship upon the water customer.*

OAKESDALE MUSEUM'S UPCOMING EVENTS

Here are some up-coming events happening in your very own community... so get ready to mark your calendars! You can check out all the events at www.oakesdalemuseum.com

| • Kid Games | |

FRIENDLY REMINDER

This is a friendly reminder to not dispose of baby wipes or sanitary products down the toilet. These products cause havoc on our equipment at our lagoons. We realize some baby wipes say they are biodegradable, but in fact they are not dissolving or breaking up when they reach the lagoons and get wrapped around the grinders. Thank you!
